

Riverdeep's *Destination Success*[®] and Title II Part D—ENHANCING EDUCATION THROUGH TECHNOLOGY

The principal goal of Enhancing Education through Technology (EETT) is to improve student academic achievement through the use of technology in elementary and secondary schools. It is also designed to assist every student in becoming technologically literate by the end of eighth grade and to encourage the effective integration of technology resources and systems with teacher training and professional development to establish research-based instructional models. The program targets funds primarily to school districts that serve concentrations of poor students.

Destination Success is the complete reading and mathematics courseware for districts striving to integrate the power of technology into the curriculum to raise student achievement. *Destination Success* includes the award-winning courseware *Destination Math*[®] (K-12) and *Destination Reading*[®] (K-8) courseware.

EETT Requirements	<i>Destination Success</i> Features
To improve student academic achievement through the use of technology in elementary and secondary schools	<i>Destination Success</i> provides the technology-based programs <i>Destination Reading</i> and <i>Destination Math</i> that have been proven to raise student achievement with results in as little as 90 days.
To support hardware and software needs in technology integration	<i>Destination Success</i> with its courseware, <i>Destination Reading</i> and <i>Destination Math</i> , is built on the latest scientifically based research and is eligible for EETT funding as a technology integration resource.
To integrate technology into the core curriculum	<i>Destination Success</i> offers a Learning Management System that facilitates integration of technology into the reading and math curriculum by providing standards based activities that are easily correlated to regular classroom texts. Professional development for <i>Destination Success</i> focuses on technology integration
To set aside 25 percent of grants for professional development	Professional development with <i>Destination Success</i> focuses on classroom techniques for using and integrating the reading and math curricula into the regular classroom program. <i>Destination Math</i> has been used as a professional development curriculum in mathematics content for teachers and paraprofessionals including in-service credits.
